

The European Football Fans Congress is to be held in Northern Ireland in July 2015!

The annual event is organised by Football Supporters' Europe (FSE), which is a network of fans' groups spread right across Europe and the Amalgamation are founder members of this organisation.

The Congress will be hosted in Belfast by the AONISC from 2nd to 5th July next year, and this was announced by FSE at the 2014 Congress in Italy that we had won the bidding process to hold the event in 2015.

FSE is a network of football supporters across Europe currently representing more than 3 million football supporters in 45 countries and its annual European Football Fans Congress is the ideal platform for fans to improve the exchange between active fans all over Europe.

As well as workshops and meetings the Congress will get out and about around Belfast for visits to showcase local Football.

There'll also be a "social" side to the event with it being a great opportunity to meet football fans from all over Europe.
